# U. S. Geographic Regions Manufactured Dairy

State totals are not published when fewer than 3 firms have reported or one firm comprises more than 60 percent of the State total. The map above outlines the regions used in the product tables. If we are not able to publish a region for confidentiality reasons, it will be combined with other regions when possible. For example, if North Atlantic can not be published, then it will be combined with South Atlantic to publish Atlantic. The West North Central and East North Central will be combined, if necessary, to form North Central. In the event that neither could be published, they will be combined with South Central to publish Central. Some tables will have only one or two regions shown, therefore the regions may not add to the United States total.

- 1/ Products manufactured in each State do not necessarily show utilization of milk produced in the State because of interstate shipments of milk. No adjustment has been made for shipments of milk and cream between States differing in the test of milk produced.
- 2/ Includes District of Columbia.
- 3/ States do not add to U.S. total; includes milk equivalent for States not shown separately.
- 4/ Milk equivalent of other dairy products, including items produced by fewer than 3 plants.
- 5/ Net total accounts for fat recovered from whey cream and used for making butter and the amount of fat from butter and condensed milk used in making ice cream.

- 1/ Products manufactured in each State do not necessarily show utilization of milk produced in the State because of interstate shipments of milk. No adjustment has been made for shipments of milk and cream between States differing in the test of milk produced.
- 2/ Includes dry skim milk for animal feed.
- 3/ Milk equivalent of other dairy products, including items produced by fewer than 3 plants.
- 4/ Includes District of Columbia.
- 5/ States do not add to U.S. total; includes milk equivalent for States shown separately.
